## 680 North Restaurant & Lounge

### 680 North Restaurant & Lounge Opens for Season

Executive Chef Bryan Kraft and new Sous Chef Joseph Starzer, formerly of Brett Favre Steak House in Green Bay, have put together an exciting new menu that includes the finest steaks and chops, Cajun cooking at its best and

nightly fish and wild game specials. The Spring hours are from Wednesday to Saturday evenings opening at 5 p.m. Sunday offers a new "Bistro Breakfast Menu from 9 a.m. to 2 p.m. with homemade omelettes, pancakes and

French toast made to order in our dining room or enjoy our Fireside buffet of scrambled eggs, bacon, sausage potatoes and an assortment of home-style breads and pastries. Call for information or reservations today!!

### Green Lake Lodge Condominium Construction Begins!!

The new Green Lake Lodge groundbreaking will take place this month. The first ten units will be constructed in the first building followed by sixteen units built in clusters of four. The projected finish date for the first building is October 1, 2006. Price range information is available at the corporate office or check out our website at [greenlakelodge.com](http://greenlakelodge.com).

On March 22nd, members will be invited to dine at 680 North and will receive a briefing on the new development. The project design and management team will present the development to the membership. Topics of discussion will include projected amenities to the golf course and pre-sale discounts available to members and the general public.

The construction will not hamper or deter member play as only the 11th tee box has to be altered to accommodate the development. Please contact the corporate office if you are interested in attending the March 22nd presentation and are intending on being our guest for dinner!! Hope to see you there!!

### Course Improvements highlight off season!!

The grounds crew was active this winter improving the front nine by developing five new tee boxes and removing some trees to open up the landing areas and provide for improved play. The new automated watering system is complete and ready to go. This will allow for faster greens and more

plush playing conditions. A new practice green was constructed in the late fall and should be ready for play by late spring, early summer, weather permitting. Many greens on the back nine will be enlarged considerably simply by changing our mowing pattern and providing for more effi-

cient and effective watering from our new irrigation system. Memberships are growing rapidly but those who have not signed up as early birds can still apply. Memberships will be closed at 150. Call the corporate office for details!! Watch for our final calendar of events ... Coming Soon!!!

#### Special Nightly Menu items.

680 North

Open at 5 p.m.

#### Full Dinner Menu Nightly!!

- **Wednesday**

Sample our new menu items each week absolutely free to the first 50 guests!!
